KIGANDA CHARLES .

Dear Sponsor, Hope your fine? I pray that this letter finds you well. Am writing to you first of all to apologise to you for my misconduct for not being honest about my studies.

Am kindly informing you that I have not been studying for the last 3 semesters despite the fact that SUNRISE paid for them. I last attended for studies in year 2 semester one in 2022. I was engaged in other volunteering work with an organisation called MUJHU that supports people living with HIV/AIDS, prioritising needs for my other siblings giving less time to my studies hence missing 3 semesters without studies and not doing exams.

With the advise I have received from school counselors, SUNRISE staff about prioritising my studies, Am going to keep on praying to the ALMIGHTY GOD to help me change. I promise to change my misconduct, I promise to become more focused, truthful, transparent and honest in everything that I do. I know you have great hopes in me, I promise never to disappoint you again. Am going to resume back for my studies, work harder such that I can get better results.

We thank you for all you are doing to improve the quality of life this child.
